

Page 1 - TABLE MARKER

Print at 100% / "Actual size" (NOT "fit to page"). The black square should measure 120 mm.
Measure it with a ruler and note the real value in mm.
Tape it flat on the table. Orient it so you can read this text while sitting at the table.
Never move it during a recording session.

Page 2 - CAMERA CALIBRATION BOARD

Print at 100% / "Actual size". Each chessboard square should measure 30 mm.

Tape it to something flat and rigid (cardboard, a book cover).
